77 Interactive Employability Life Skills Lessons

Pre/Post Tests • Teacher's Guides • Lesson Plans • Certificates of Achievement

The Phillip Roy, Inc. Online Life Skills education addresses and solves many of the issues involved in delivering an excellent, relevant, cost-effective, proven-effective program.

\$150.00 One-time School Registration Fee

\$10.00 Per Student Per Year

1. Who operates the school?

Your school or organization is the operator of the school.

2. What does this mean?

You assign students their passwords and lessons. You can also manage and oversee your students' progress along with awarding them certificates of completion.

3. Where will I get the materials I need to run the school?

The staff of Phillip Roy, Inc. will supply you with directions on how to manage your students, from assigning passwords to awarding certificates of completion. In addition, they will provide you with the course material, including lesson plans, teacher's guides, pre/post-tests, and other important information.

4. What will it cost to start my school?

Phillip Roy, Inc. requires a **one-time school registration fee of \$150.00.**

5. What does this fee include?

This fee includes all of the lessons listed on the next page. The student's family can also use this curriculum.

6. How many students do I need to start?

You can enroll any number of students you wish. The fee is only **\$10.00 per student per year.** We can invoice your school once a month for your additional students. New students can take the place of drop-out students.

7. Do I need a computer?

As this course material is delivered on the computer via the Internet, you should have a computer with Internet access available, or your students should have access to a computer and the Internet.

8. Do I need a teacher for the school?

You will receive instructions to teach in the form of lesson plans and teacher's guides; however, remember that all of the materials can also be used independently. Your students can study and learn any place, any time that they have access to a computer and the Internet. You as the administrator/teacher can check on your students' progress via pre/post-tests online.

9. What is the student or school fee?

Your only requirement is to pay Phillip Roy, Inc. (after your initial fee of \$150.00) \$10.00 per student per year.

10. Do you have books that also teach this curriculum?

Phillip Roy, Inc. has books and CD-ROMs that accompany the online lessons to enable you to teach in a classroom and/or at a student's residence. The books and CD-ROMs are not necessary, but they are available at a low price. See pages 2 and 3.

11. How long will it take a student to complete the course?

It will depend on the time the student puts into the study, as well as the student's background, interest and ability. It also depends on any additional assignments you may want to give to the student.

12. How long has Phillip Roy, Inc. been in business?

Phillip Roy, Inc. has been publishing educational materials since 1987.

13. How will this course benefit my students?

It will help them live happy, productive lives in their family, community and workplace.

14. How do I register and start my school?

Just order the Phillip Roy, Inc. Online School. After you pay your registration fee and student fee, Phillip Roy, Inc. will send you all the information and supplies you will need to start and operate your school.

REASONS TO USE THIS EMPLOYABILITY LIFE SKILLS ONLINE CURRICULUM

1. It teaches your students about things they want and need to know.
2. It teaches your students thinking skills such as decision-making and responsibility for their actions.
3. It teaches your students how to adapt to succeed in society.
4. This is a multimedia curriculum. It contains books, interactive CD-ROMs (with audio) and online/virtual school.
5. All or any of the parts of the curriculum can be purchased separately - books, CD-ROMs, online school.
6. All materials are duplicatable and networkable.
7. All of the titles have lesson plans.
8. Aligned/correlated to state and federal standards.
9. Teacher's Guides are provided along with an instructional PowerPoint Presentation.
10. A new, comprehensive Pre/Post Assessment is provided, along with assessments for each title, to provide additional accountability along with documentation of effectiveness.
11. New to the online/virtual school is the documentation of time spent on each lesson and the entire curriculum.
12. The curriculum is controlled by your school/teacher.
13. Customer service is provided 9-5 EST Monday through Friday.
14. Each student slot is available for an entire year – one student leaves and another can take his/her place at no additional cost.
15. Certificates of achievement are provided.
16. Orders of any size are accepted.
17. Training is available.

A NEEDED TEACHER'S REFERENCE

A Needed Work-Reference Book
Includes:

Special Education

6 curriculums covering 80 subjects with 541 lessons

ALSO

Objectives, Instructional Strategies, Pre/Post-Assessments for Proven Accountability

***** Basic Skills *****

10 subjects and 90 lessons

Basic skills are those skills that can be applied across a variety of curriculum areas. They serve as a foundation for competitive employment, sheltered employment, and independent living. Learning these skills empowers a student to function with greater independence.

***** Competitive Employment *****

12 subjects and 132 lessons

Competitive employment prepares the student for competitive, independent employment in the community setting. The student will be able to enter the job market, get a job and keep the job.

***** Leisure Time *****

6 subjects and 32 lessons

Leisure time skills enrich the student's life by increasing the student's options for personal pleasure and enjoyment. The focus of these lessons is to expose the student to and make the student aware of a wide range of leisure time activities that can be done throughout life.

***** Sheltered Employment *****

14 subjects and 81 lessons

Sheltered employment teaches job skills to the student in need of individual or group supervision. These competencies will aid the student in becoming an active participant in our society. The student will become proficient in performing a variety of necessary jobs in a workshop setting.

***** Skills for Independence *****

24 subjects and 141 lessons

Skills for independence are the competencies required to lead a semi-independent life. The student may always need assistance, but by developing abilities for daily living, the student will become a vital member of the community.

***** Work Adjustment *****

14 subjects and 65 lessons

Work adjustment teaches the student how to: respond to authority and supervision; correctly interact with peers and co-workers; and have good work habits, behaviors and attitudes. These are the skills critical for getting and keeping a job.

Duplicatable at Purchasing Site

See our website www.philliproj.com for sample lessons and a list of all subject areas.

EMPLOYABILITY LIVING SKILLS ENCYCLOPEDIA (EBE)...\$495.00

JOB READINESS & TRAINING CURRICULUM

A Spiraling Curriculum

A Sequential Competency Program
Duplicatable Books & Audio CDs

For All Your Students

THREE COMPETENCY LEVELS

This curriculum has been written to help ALL of your students learn the competencies and goals needed for work maturity and pre-employment. These competencies include:

Pre-Employment Skills

- Career Decision-Making
- Job Applications
- Business Letter
- Labor Market Information
- Interviewing
- Resumes

Work Maturity Skills

- Punctuality/ Attendance
- Positive Attitude/Behavior
- Appearance
- Interpersonal Relationships
- Completing Tasks

All of your students want to learn, but they have different abilities. This curriculum addresses this problem by having **three** levels of competency materials. Your students will learn on their own level.

Each of the **three** levels contains materials and information to meet competencies and goals for work maturity and pre-employment; however, the materials for each of the three levels differ in reading level, complexity, and format.

The format and difficulty of the materials advances with each level to accommodate the abilities of the students. **Audio CDs** are included in Level I and Level II to help students understand the information in each book as they develop their reading skills.

Since education is a life-long process, all the materials are duplicatable after purchase.

This program is ideal for use in **Workforce Investment Act (WIA) Programs, Re-entry programs, Welfare to Work (WtW) Programs, One-Stop Programs, Youth Training Programs, School-to-Work Programs, YOCs, IEPs, and other employment/self-sufficiency programs.**

Accountability is provided by use of pre/post-tests and skills sheets.

*** HOW THE CURRICULUM WORKS ***

This is a spiraling curriculum

Level tests and prescriptions are provided to determine the strengths and weaknesses of your students' knowledge and skills. The tests give you information as to what level to begin instruction at, along with a **prescription** to remediate your students' weaknesses and to reinforce your students' strengths.

Use this **unique** program for all your students. Everyone will have the same program but will use different levels. Success is assured as they both progress in knowledge and advance to higher levels.

An **answer key**, along with a **scoring grid**, is provided so that you can easily develop an individual program for each student. This saves time along with increasing your students' chances for success.

Each book contains **pre/post-test** materials so your students can work individually. The **pre/post-tests** can be used as guides for your students to monitor their progress throughout the curriculum. Using this curriculum your students can progress at their own speed and achieve success as they master each skill.

A **teacher's guide** is provided which explains how to use the **level tests** and the **scoring grid** to develop **prescriptions for remediation**. **Lesson plans** are provided for each book along with suggestions for different ways that the materials in the curriculum can be used. Materials come in a self-contained carrying case. **Certificates of Achievement** are also included.

A VERY IMPORTANT CURRICULUM

A Job Corps Favorite!

RATIONALE FOR THESE BOOKS

“Why do I need to read? I’m going to be a cook.” “Why do I need to know math? I’m going to be a mechanic.”
 “Why do I need to write? I’m going to be a carpenter.”
 The reason for the Vocational Academic Curriculum is to have your students understand that they need to have the academic knowledge that will be used in their future jobs.

The curriculum integrates different academic knowledge with each vocational trade!

HOW THESE BOOKS ARE WRITTEN

These unique books combine math, language arts, and reading in vocational content areas by using specific examples and situations for each academic skill.

Applied Academics

A Different Academic Curriculum For Each Vocational Trade

MATHEMATICS		LANGUAGE ARTS	
Addition	Subtraction	Complete Sentences	Punctuation
Multiplication	Division	Capitalization	Business Letters
Decimals		Addressing an Envelope	
APPLIED MATHEMATICS I		READING	
Fractions	Mixed Numbers	Context Clues	Parts of Words
Percents	Estimation	Summarize	Main Ideas and
Decimals	Problem Solving	Reading for Information	Details
APPLIED MATHEMATICS II			
Measurement	Tables, Charts & Graphs		

THE APPLIED VOCATIONAL ACADEMIC CURRICULUM (V.A.C.) CONTAINS SPECIFIC EXAMPLES AND SITUATIONS INTEGRATING ACADEMIC KNOWLEDGE INTO VOCATIONAL TRADES

Program Includes

✓ Teacher’s Guides	✓ Answer Keys with Explanation	✓ Lesson Plans

GETTING AND KEEPING A JOB®

Sound, Graphics
& Networkable

TWO IMPORTANT SKILLS THAT MUST BE LEARNED

Accountability

NETWORKABLE INTERACTIVE CD-ROMS

DUPLICATABLE COMPANION BOOKS & ONLINE SCHOOL

Getting and Keeping a Job consists of two parts which are interrelated and equally important. It consists of interactive CD-ROMs, companion books and online access. This curriculum takes your students from job seekers to job holders. Basic employability skills must be acquired to enter the workforce. Students must learn that appropriate interpersonal relationships are a must in keeping a job. This curriculum relates to their uncertainties and gives them the confidence and knowledge needed to succeed. Pre/Post-tests assure accountability.

WHAT IS INCLUDED?

Interactive CD-ROM programs with companion books and online school includes: SOUND, GRAPHICS, Glossary of Terms, Pre/Post-Tests, Instructional Activities, Teacher's Guide, Lesson Plans, Management and Record Keeping System, FREE DUPLICATION and NETWORKING at Purchasing Site, Aligned to CASAS, and Certificates of Achievement.
